YASHOBHOOMI, IICC
Dwarka, New Delhi

ASIA'S PREMIER
FOOD MANUFACTURING
TRADE SHOW

POST
SHOW
REPORT
2026

ORGANISED BY

TPC Trade Promotion
Council of India

Indusfood Manufacturing 2026 was held from 6–8 January 2026 at Yashobhoomi, IICC, Dwarka, New Delhi. Organised by the Trade Promotion Council of India (TPCI), the show focused exclusively on food, dairy, bakery and beverage manufacturing, processing, packaging, automation, and allied technologies.

The show brought together leading technology providers and food processors from India and abroad, reinforcing its role as India's most powerful marketplace for manufacturing innovation, technology adoption, and scalable industry growth.

India today has surplus agricultural production, a strong manufacturing base and a young, skilled workforce. The opportunity before us is to further strengthen food processing through value addition, quality enhancement and technology adoption so that we create employment, increase farmers' incomes and expand exports. Platforms such as Indusfood Manufacturing play a crucial role in translating this potential into tangible outcomes.

Shri Avinash Joshi, IAS
Secretary
Ministry of Food Processing Industries, Government of India

I am pleased to be here and encouraged by the strong participation from industry delegates. The programme offered valuable presentations and meaningful insights, providing participants with excellent exposure to current developments and opportunities in the dairy sector.

Shri Thiru T. Mano Thangaraj
Minister for Milk & Dairy Development,
Government of Tamil Nadu

“I found the IFM 2026 experience highly interesting and informative. Having a wide range of technologies, machinery, and solution providers under one roof made it much easier to evaluate options and identify the right fit for our operational needs. The show enabled direct interactions with manufacturers and experts, helping me address specific challenges, explore upgrades, and gain clarity on practical, implementable solutions for our business.”

The Show Successfully Balanced

1. Immediate buying intent
2. Medium-term sourcing
3. Strategic technology evaluation

“Indusfood Manufacturing is not just a platform for showcasing our products, but also for understanding what the market truly expects and how customer needs are evolving. It helps us identify gaps and align our solutions more effectively.

Our overall experience has been very positive, with strong footfall and meaningful B2B engagements.

Beyond generating leads, it has been a valuable learning opportunity. The conferences and discussions were insightful, and our interactions with potential customers were focused and productive.

Mohfiz Parmar

Head - Strategy & Marketing
Rieco Industries

“ I had an excellent experience at Indusfood Manufacturing and IDPC 2026 at Yashobhoomi, New Delhi. It was an honour to serve as a jury member and engage with global leaders and industry experts driving innovation and sustainability across the dairy value chain.

Rajiv Mitra
Sr. Advisor
Indapur Dairy & Milk Products Ltd ”

“ IFM 2026 brought together diverse industries and decision-makers. I engaged with customers across sectors, gaining insight into current technology adoption and future trends. The strong organisation and global buyer interactions made it a productive platform.

Pankaj Suri
Technical Director
Accord Automation Pvt. Ltd. ”

“ My experience at Indusfood Manufacturing was very positive, with strong footfall and meaningful interactions with partners and industry leaders. It stands out as a credible platform for the food manufacturing ecosystem, and I look forward to participating again.

Ronak Panchal
Director
Inertech Projects Pvt. Ltd. ”

“ Indusfood Manufacturing 2026 gave us direct exposure to the food processing ecosystem, from machinery to established brands, helping us understand real-world opportunities and benchmarks. Platforms like this play a key role in supporting India's startup ecosystem.

Nikhil Doda
Co-Founder and CEO
Lahori Zeera ”

“ Indusfood Manufacturing remained a relevant platform for visibility and industry engagement. While visitor momentum was steady, I met overseas buyers with strong interest in our solutions. The show also built awareness around compliant, future-ready packaging technologies.

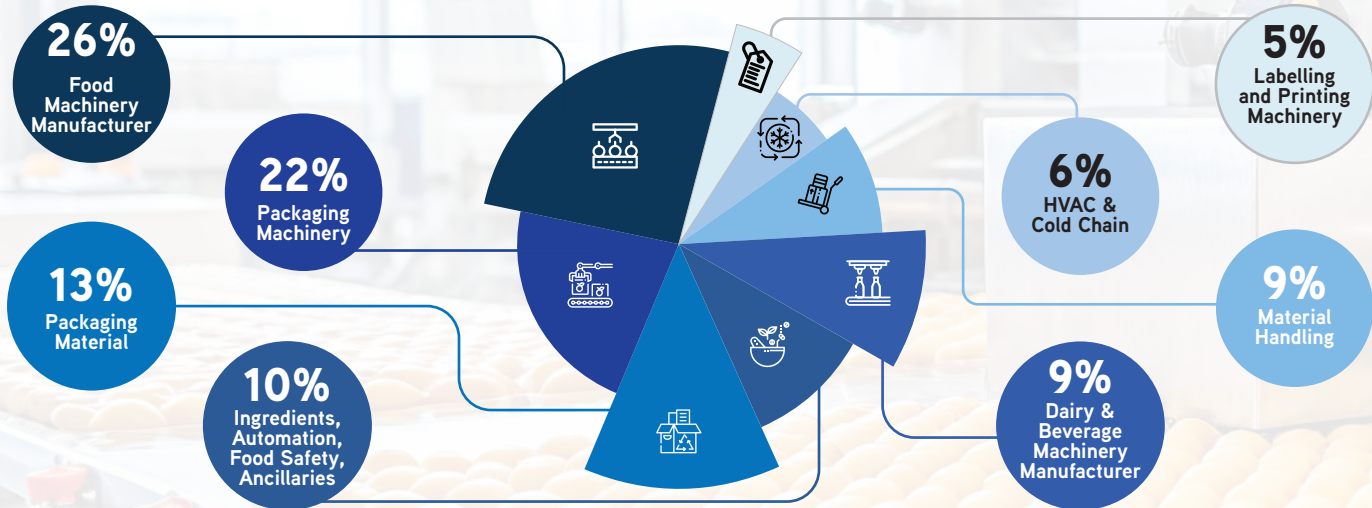

Ajay Bansal
Proprietor
AVI International Packaging Company ”

“ I appreciate the opportunity to participate as a panelist and share a processor's perspective on value addition and industry needs at IFM 2026. The dialogue helped bridge the gap between manufacturers and users, and I look forward to being part of future editions.

Ashish Kumar Agarwal
Managing Director
Bhikharam Chandmal Group ”

strengthening India's dairy sector through research, teaching, training and extension. Beginning his career as a demonstrator in dairy due nutrition, he rose to the position of Principal Scientist and head, providing lead-

ership in research, professional, academic mentoring and institutional development. He has co-authored books, book chapters, technical bulletins and peer-reviewed research papers, consistently translating scientific knowledge into field-level solutions. Dr Gosain has also undertaken international study visits and professional exchanges in the United Kingdom, Italy, Pakistan, Vietnam and the United States, integrating global best practices into Indian dairy systems. Post superannuation, he continues to serve the farming community through his WeRize platform with over 60,000 subscribers. Beginning his career as a demonstrator in dairy due nutrition, he rose to the position of Principal Scientist and head, providing lead-
